

**Fight The Colonial Narrative
With Facts**

Since 2008, and **during the past week**, the Israeli occupation has been employing **internationally prohibited weapons** of mass destruction, such as white phosphorus bombs, in the densely populated Gaza Strip, killing people indiscriminately.

White phosphorus-induced **fire rains** cause excruciating burns that may extend to the bones. **They damage vital organs** such as the liver, kidneys, heart, and lungs, likely **leading to death.**

White phosphorus poisons and accumulates in both soil and groundwater for years, resulting in the destruction of trees, agricultural crops, and the environment.

Since the creation of the settler-colonial state, cruel tactics have been employed to **dehumanize** Palestinians and **normalize** their displacement and **annihilation.**

"The Palestinians are beasts walking on two legs"

**Menachem Begin, Former Israeli Prime Minister,
25/06/1982**

“We are fighting **human animals** and we are acting accordingly”

Yoav Gallant, Israel's Defense Minister

9/10/2023

This is the root cause of recent events.

Don't fall for the colonial narrative.

Join in the fight for truth, dignity and
justice.
