

Call for CSO Signatures: Expel Cindy McCain

A quick refresher!

Over 100 CSOs are advocating to expel WFP Executive Director, Cindy McCain, following her participation in the Halifax Security Forum, where the award named after her late husband was presented to **Brothers in Arms** – Achim Laneshek, which fundraises for military equipment for the Israeli army and illegal settlers in Palestine.

There's still more...

On behalf of WFP, McCain discussed the use of food as a tool for subjugation in numerous cases but notably omitted the current starvation of **over 2 million Gazans by the Israeli occupation.**

Where's the breach?

McCain's practice is a dangerous breach to the **fundamentals of humanitarian action** including impartiality, independence, neutrality and humanity which prevent conflict of interest and ensure respect for human rights, and dignity of all persons.

Any other violations?

McCain violated the **UN Charter and the Oath of Office** she took to carry out her duties with professionalism, integrity and responsibility. She abused her position as a representative of the international community in a political activity that supports militarism, thereby re-inforcing colonization and the status of starvation for all Palestinians.

Sign the urgent appeal!

Help us hold the WFP Executive Director accountable.

We must not stand idle.

You can deliver a copy of the letter to the UN offices in your countries.

Together we ask the UN:

What are the **mechanisms and criteria for the selection** of your employees, particularly in senior roles? How is **accountability** upheld within these roles?
